

## List of 2024 AfriCap and SAO-CWIS scholarship recipients

Full Name	Country	Research Topic
ABDULMALIK HUSSAINI	Nigeria	Assessing the efficacy of Electrochemical Treatment Method in removing Heavy Metals from Tannery Effluents.
Clarence Farai Mapenzauswa	Zimbabwe	Development And Application of a Geospatial Based Hydraulic Model for Non-Revenue Water (NRW) Accounting in Local Authorities: a Case of the City of Mutare, Zimbabwe.
Derrick Yaw Akuoko Obeng	Ghana	Overcoming Implementation Challenges of Gender-responsive Policies on Water, Sanitation and Hygiene (WASH) in Greater Accra, Ghana: A Case Study of Promoting Safe WASH Access in Schools.
Dimouya Honoré	Chad	Study of the impact of wastewater on the quality of drinking water in the city of N'djamena/Chad: Case of the 8th district.
GABRIEL TAMBWE	Zambia	Towards Safely Managed Sanitation: A Decision-Making Tool for Onsite Sanitation Containment Technologies and Systems in Urban and Peri-Urban Areas of Zambia.
Hakizimana Theoneste	Rwanda	Performance Evaluation of water supply service in Kigali City.
ISHIMWE Claudine	Rwanda	Assessing bamboo's potential for water and soil quality improvement in the Muvumba catchment of Rwanda
Kabo Benedict Jongman	Botswana	Application of clay-based microbial fuel cell to treat petroleum wastewater and generate green energy
Kaboré Arlette Kidwendsida Lucie Ruth	Burkina Faso	Contribution to the reduction of evapotranspiration from water bodies in the arid zones of Burkina Faso for water security in a context of climate change
KAMDOM SADO MYLENE	Cameroun	Anaerobic co-digestion of anthropogenic waste for a sustainable biogas solution and energy production in the city of Yaoundé, Cameroon
Kone Zikani krotoum	Côte d'Ivoire	Contribution of remote sensing and gis data to the study of fracture reservoirs in the mountain region: the case of the Zouan-Hounien sub-prefecture in western Côte d'Ivoire
Mahamat-Nour Djibrine	Tchad	Effects of open defecation on the quality of drinking water and the health of the population in the town of Mongo (Chad): Case of the 3rd district
MOSANGE THERESE MBUMBA	DR Congo	Proactive flood risk management using gis and remote sensing in the Buhavu catchment area, South Kivu, Democratic Republic of Congo
PEKEYI MALAGUIHEWA GRACE	Togo	Geophysical and Hydrogeological Characterization of pollution of the water table by leachate from the abandoned Agoe-Niyve 1 landfill site in southern Togo

RAVOLOLOMANANA FENOHASINA VON	MADAGASCAR	Leachate from Andralanitra Landfill Antananarivo: Characterization and Impact Study on the Water Table
Ruvimbo Mutasa	South Africa	Developing a tool for modelling water quality under intermittent water supply conditions
Selam Yeshanew Ashenafi	Ethiopia	Examining Institutional Capacity Gaps, Strengths, and Pitfalls of Rural WASH Governance in Ethiopia
Sotondji Francois Rodolphe	Bénin	Evaluation of the impact of pesticides on the physico-chemical and microbiological quality of water and soil in the commune of Ouèssè Benin
Steven BHUSVUMANI	Algeria	The impact of discharged wastewater from Tlemcen University Hospital on multi-drug resistant bacteria
Zaharandine BA-LADANI	Benin	Integration of IoT in rational water management in the context of climate change in Natitingou
