

# National Water & Sewerage Corporation

1

## HARNESSING ICT TO ACCELERATE SUSTAINABLE WATER & SANITATION FOR ALL IN AFRICA

PRESENTED BY:

**John Nkwanga**  
**Senior Manager, IT**  
**NWSC, Uganda**

**16<sup>th</sup> July 2018**

# Presentation CONTENT

2

- Brief History of IT Evolution in NWSC
- Deployment of Centralized and Integrated IT Systems
- Computerization of Core Business Processes
  - In-house developed IT Solutions
  - Innovations on-going
- Future Plans
- Q&A

# A Brief History of IT Evolution in NWSC

3

Year	Description of IT Development
~1990	Pilot Block mapping exercises for Kampala
~1993 - 95	<ul style="list-style-type: none"><li>• Introduction of computerized Billing system (Hi affinity/Custima) in Kampala starting with Big consumers.</li><li>• Implementation of Scala Accounting System at head office</li></ul>
1999-2000	Review of Scala Implementation under Small Towns Project, Increase Scala modules, User licenses and Increase coverage to area offices
~2001 - 03	<ul style="list-style-type: none"><li>▪ Expansion of Country-wide WAN</li><li>▪ Remote access to Scala Accounting System at Head office, using CITRIX</li><li>▪ Corporate Website and email systems</li></ul>
~2004 - 07	• Call center implementation, Upgrade of Billing systems, Corporate Telephony System (VoIP)
~2008-16	<ul style="list-style-type: none"><li>• Multi Company Setup of Accounting system,</li><li>• Handheld Meter reading device implementation,</li><li>• In-house development of systems(e-water,Billing,E-procurement,CRM,e-inventory,..)</li><li>• SMS / Mobile Solutions</li></ul>
~ 2017-18	<ul style="list-style-type: none"><li>• Developed on-line leave, Mobile Apps(CRM,Fuel approvals,Win on-spot billing)</li><li>• On-going in-house developments(Pre-paid Mgt software, IoT for smart meters, Doc Mgt, Booster and Reservoir monitoring)</li></ul>

# Deployment of Centralised and Integrated IT system

## Centralised IT system – NWSC Infrastructure

4

...Systems used across all 240 NWSC offices...managed and monitored centrally. Primary & backup

# Deployment of Centralised and Integrated IT system Cont..

## Centralised IT system – NWSC Data Centre

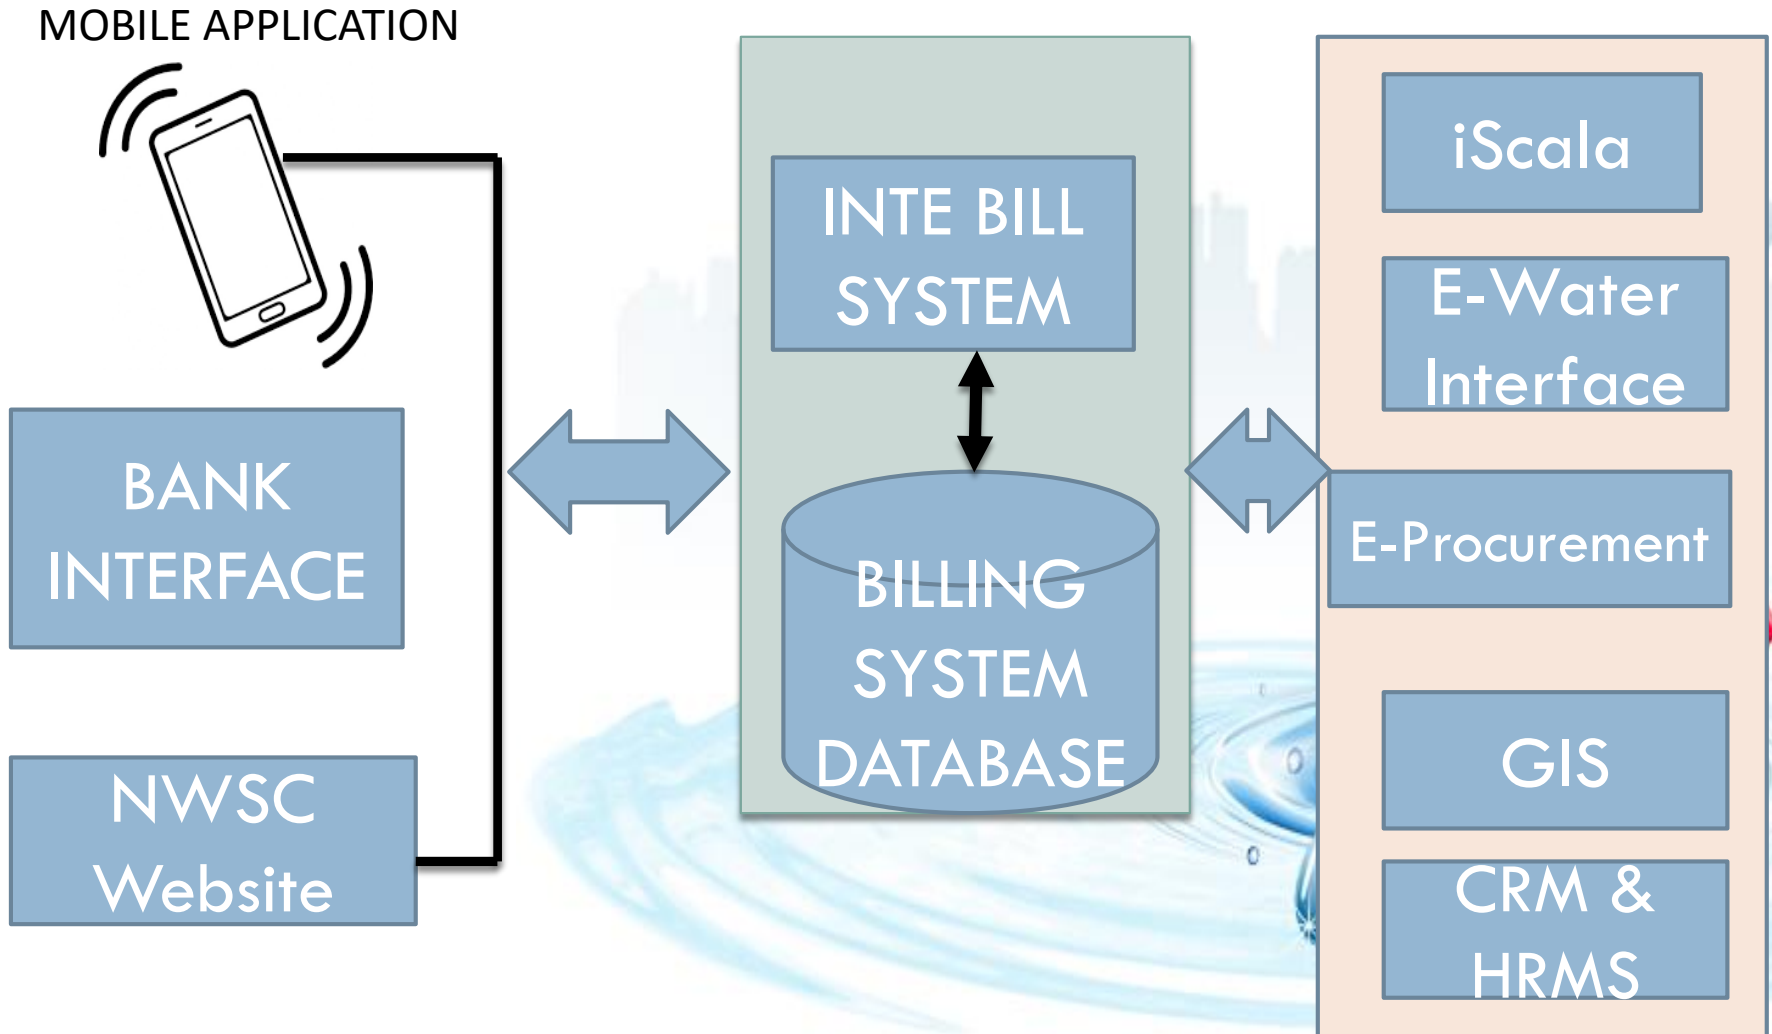

5

# Deployment of Centralised and Integrated IT system cont...

## Integrated IT Systems - NWSC

# Deployment of Centralised and Integrated IT system Cont..

## Benefits to NWSC

7

- ❑ **Facilitates Swift Expansion of coverage at Minimum cost**
  - ❑ No need to buy servers for billing and IT service operations
  - ❑ No payment of licenses for customers Added
  - ❑ Customisation of Billing requirement for an Area taken over takes Less than six hours to have it ready
  - ❑ No need to deploy IT experts in Areas taken over
- ❑ **Facilitates extraction of global Reports for informed Decision Making by Mgt**

# Computerisation of Core Business Processes

8

## Some of the Core Processes Computerised at NWSC

- New Connection and Billing
- Customer payment management and Monitoring
- Accounting and payroll management
- Human Resource Management
- Customer Relationship Management
- Procurement and Inventory Management
- Metering Management
- Production, supply and Distribution management plus monitoring

### □ Billing System

#### □ New Connection Module

- Apply at Office
- Apply on-line through NWSC Website

#### □ Readings Module

#### □ Billing Module

- On-site billing
- Field Billing using “On-spot billing App”

#### □ BI/Reporting Module

# Computerisation of Core Business Processes Cont...

## IT Innovations at NWSC (In-House Developed Systems)

10

### Field Billing/On-Spot Billing

**Bill Printing on Handheld Thermal Printer**

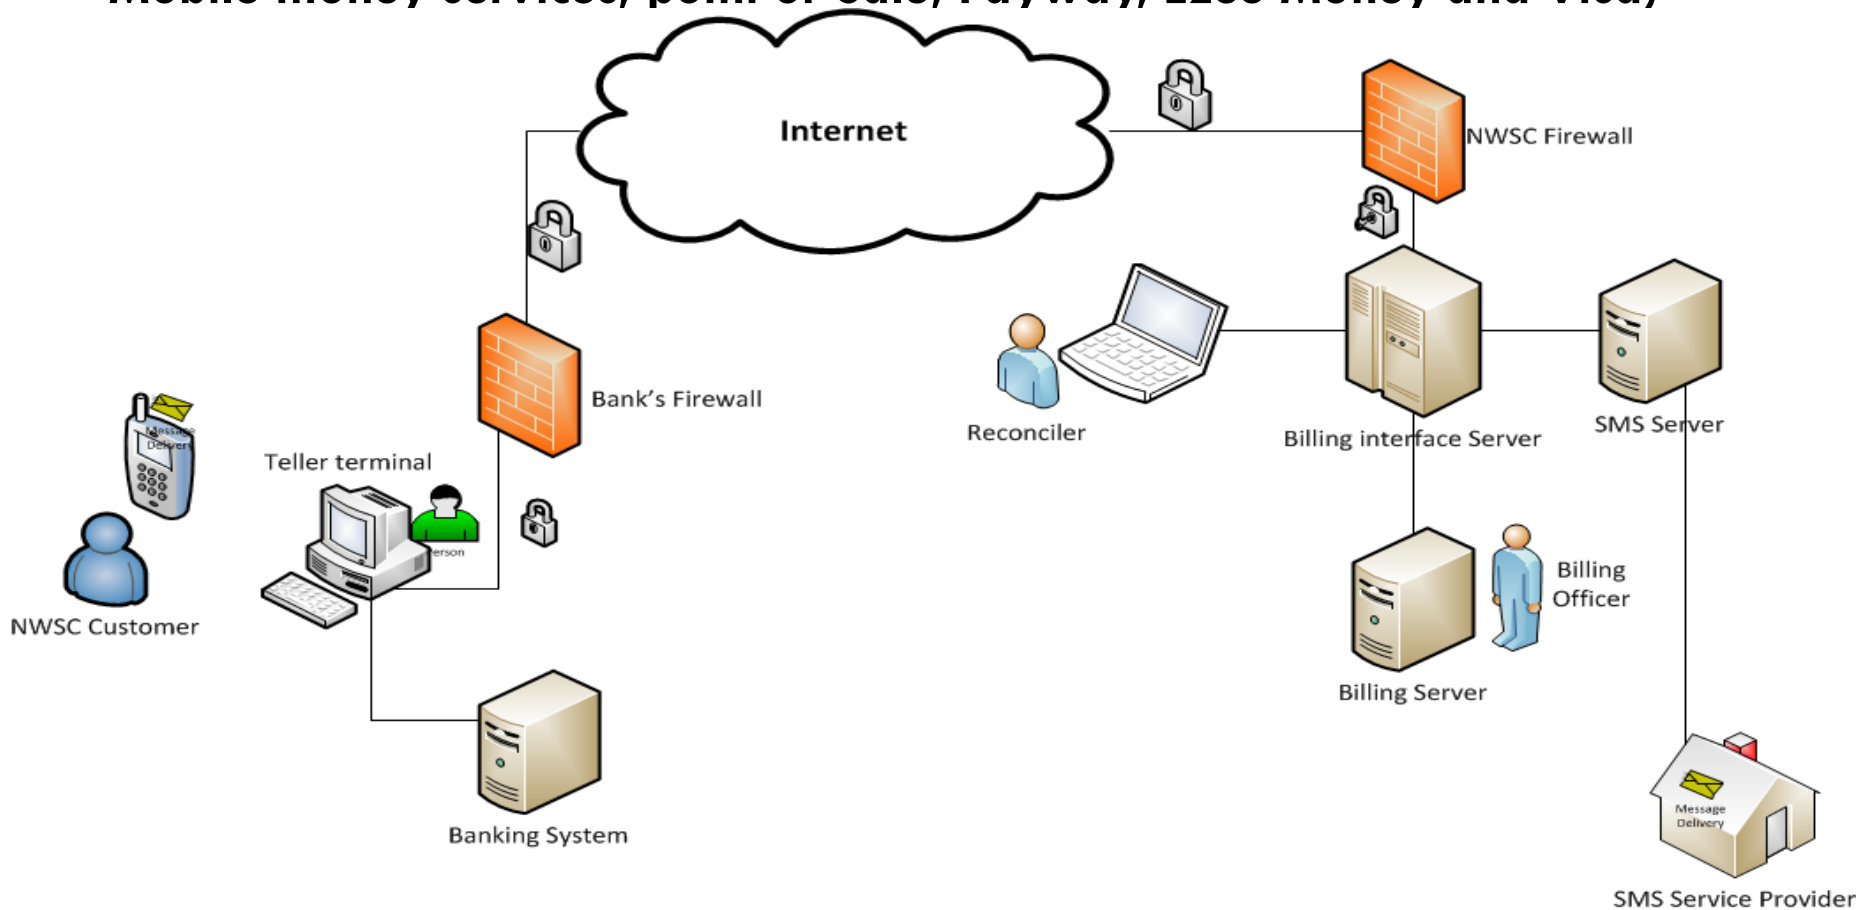

## IT Innovations at NWSC (In-House Developed Systems)

11

### Customer Payment Management and Monitoring (E-water)

- Implemented with Integration of collection channels (Banks, Telecommunication Mobile money services, point of Sale, Payway, Ezee Money and Visa)

# Customer Payment Management and Monitoring (E-water System) Cont...

12

## □ Benefits to NWSC

- Efficient management and monitoring of Payment from customers through a centralised portal
- Improvement of collection performance
- Reduction of operation costs for cash office
- Reconciliation Management
  - Automatic reconciliation with e-bank statement
  - Automatic Update of the Accounts in billing after reconciliation
  - Easy Follow-up of unreconciled transactions

# Computerisation of Core Business Processes Cont...

## IT Innovations at NWSC (In-House Developed Systems)

13

### ❑ Customer Relationship Management

- For Incident Recording, Assignment, Monitoring and completion of Jobs
- Used by call centre and internal staff

### ❑ Mobile App (Windows and Android platform)

- Increased customer interaction/feed back
- Allowed Customers access balances
- Enable customers access their statements
- Comments captured and integrated with CRM for immediate attention

# Computerisation of Core Business Processes Cont...

## IT Innovations at NWSC (In-House Process Re-engineering)

14

### □ Stakeholder Engagement and management

- Implementation of Toll Free Lines with Major Telecoms – Facilitates reporting of Anomalies in the field plus need of Services
- Social Media Engagement through Various Media; Whatsapp, Twitter, Facebook, etc

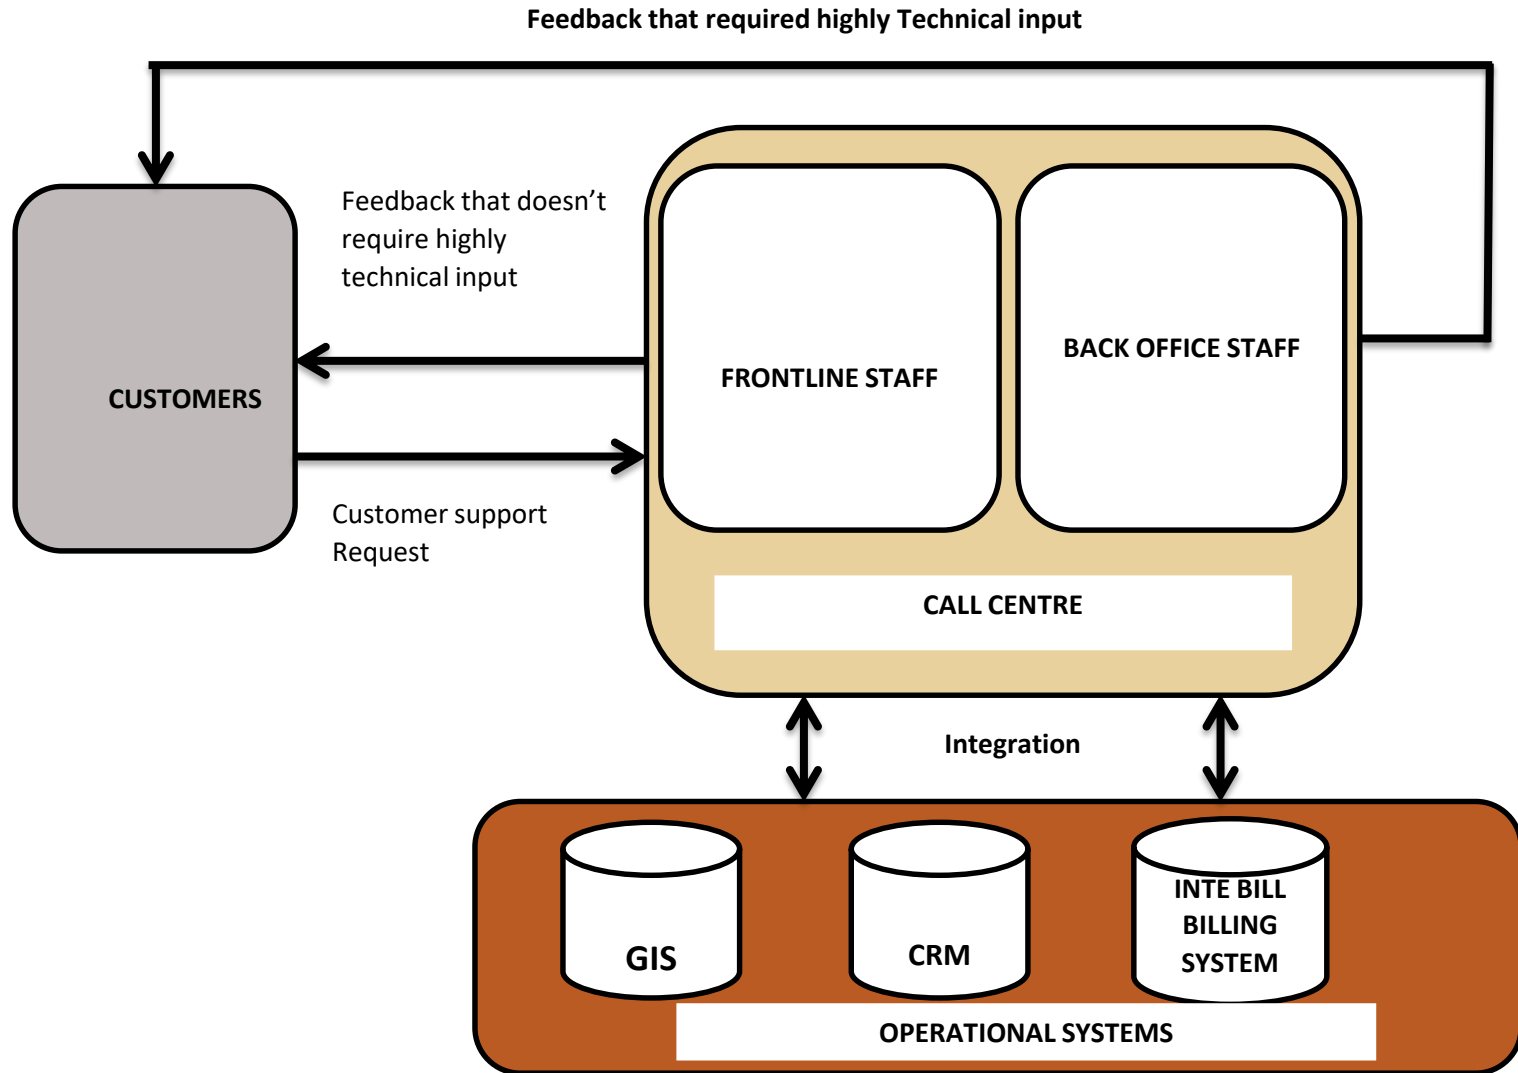

Social Media Team Engaging Customers

# Computerisation of Core Business Processes Cont...

## IT Innovations at NWSC (In-House Process Re-engineering Call Centre Setup)

15

- ❑ **Human Resource Management system**
- ❑ **E-procurement**
- ❑ **E-inventory**
- ❑ **Geographical Information System(GIS)**
- ❑ **Booster monitoring, to be enhanced to monitor reservoir levels**

## Metering Management – On-going Innovations

17

- **Implementation of Smart Water Meters that uses Accurate and Secure Radio Frequencies**

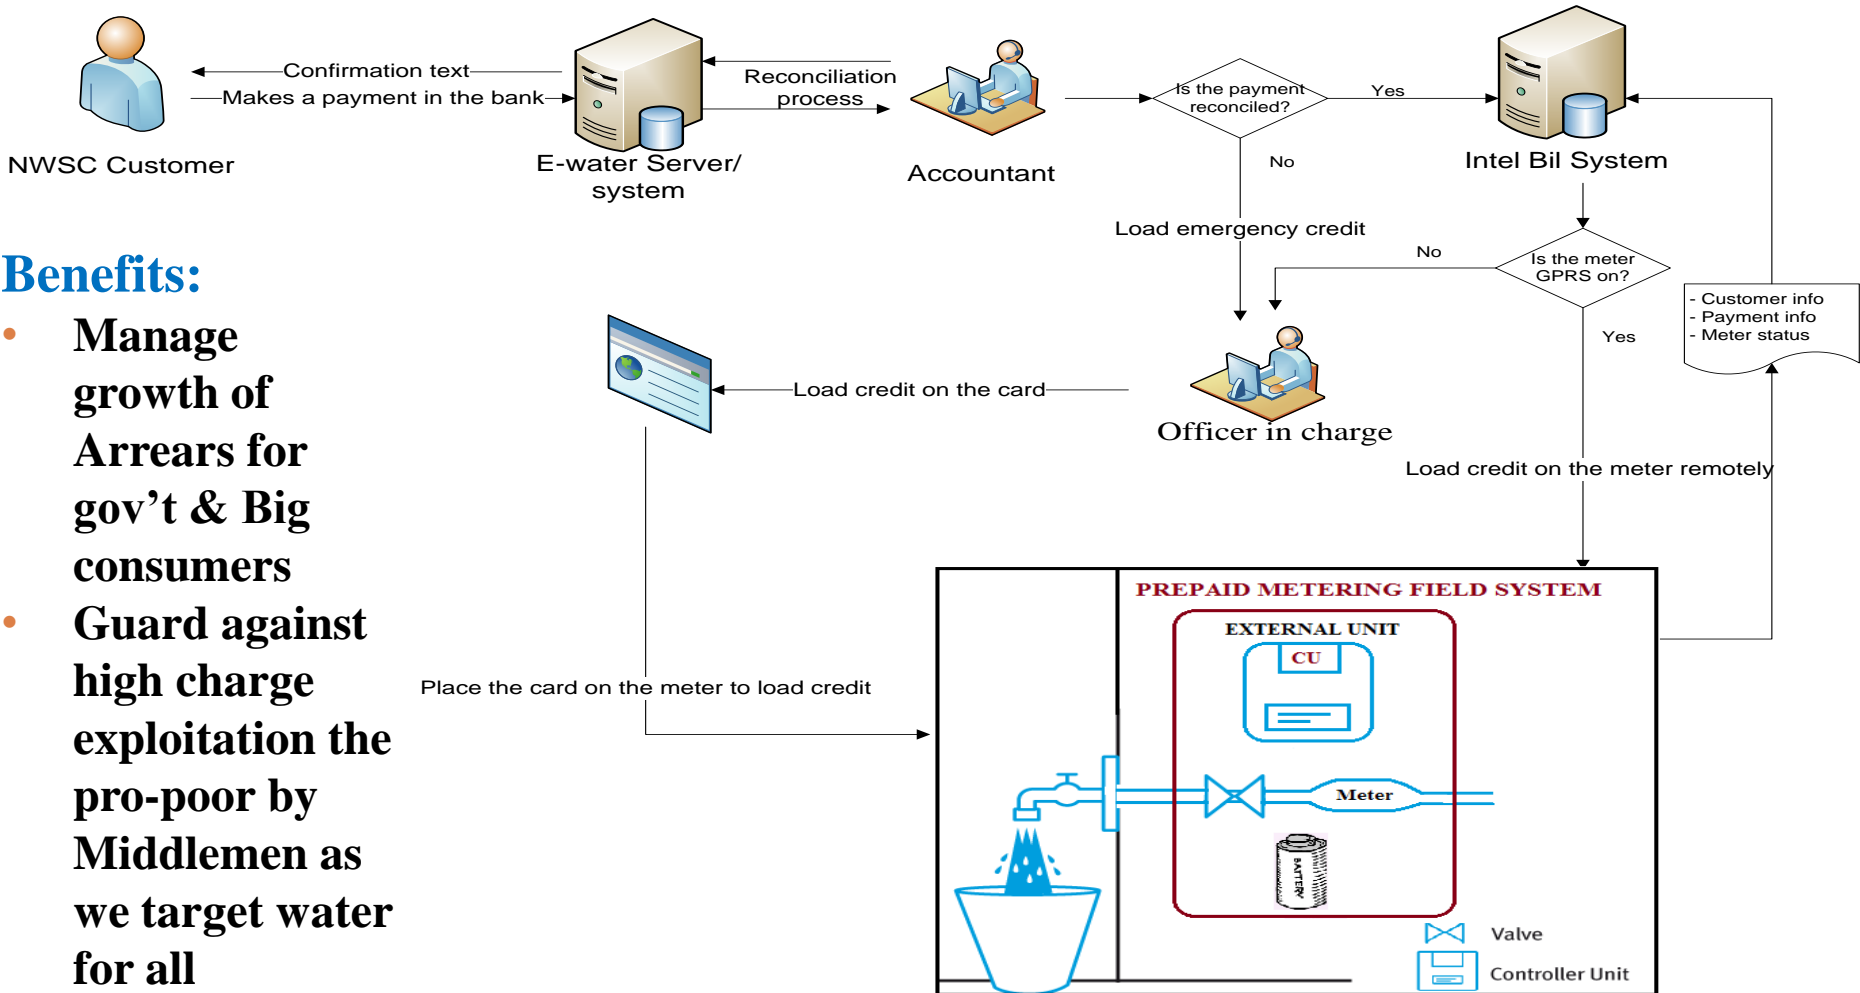

# Computerisation of Core Business Processes Cont...

## Metering Management – On-going Innovations

18

PROPOSED ACTIVITY FLOW DIAGRAM FOR THE  
NWSC PREPAID METER SYSTEM

### Benefits:

- Manage growth of Arrears for gov't & Big consumers
- Guard against high charge exploitation the pro-poor by Middlemen as we target water for all

# Computerisation of Core Business Processes Cont...

## Metering Management – On-going Innovations

19

### IoT Technology with Smart Metering Solution

#### NWSC Platform

1. 200 users water platform for pilot
2. Deploy only Demo servers for pilot

Data center

Data Center

(eLTE-IoT)

Water Meter  
(eLTE-IoT)

# FUTURE PLANS

20

- **Cloud Computing for some critical live systems & Disaster Recover**

## FUTURE PLANS CONT...

21

- Adopt Smart networks ie Optimise the GIS to monitor; Dry zones, Locations with high concentration of bursts, leaks , etc
- Implementation of Fleet management system with GIS integration
- Adopt Scada systems for automated control of production plants in all the big towns

# Thank you for Listening

22

## Q&A

John Nkwanga  
Senior Manager, IT  
NWSC, Uganda
